

Android Software Developer

Coimbra, Porto, Leiria, Lisboa, Aveiro - Portugal

We are seeking talented Software Developers to create mobile apps for Android phones, tablets or set-top boxes. If you have experience in this platform, good skills on Java or Kotlin programming and want to develop mobile apps for the global market this is the opportunity you are looking for.

Key Responsibilities

- Design, development, and testing of mobile applications.
- Work closely with product management, UI/UX designers, API/Backend engineers and quality teams on feature definition and release milestones.
- Perform peer code-reviews and unit-testing to ensure high-quality software.

Additional Information

- Job Location: Coimbra, Porto, Leiria, Lisboa, Aveiro (Portugal)
- Position Type: Full-time
- We offer a competitive compensation package as well as an environment conducive to personal and professional growth

Requirements

- BSc or MSc on Computer Science or Computer Engineering
- 2+ years of experience developing mobile apps for Android devices (Java or Kotlin)
- Solid knowledge of the Android SDK
- Knowledge of web architectures and services
- Must have excellent problem solving skills
- Experience with version control software such as Git and a continuous delivery system
