

iOS Software Developer

Coimbra, Porto, Leiria, Lisboa, Aveiro - Portugal

We are seeking talented developers to help us develop apps for iOS, iPadOS and watchOS. If you have experience with any of these platforms, have solid knowledge of UIKit and Swift/Objective-C programming, and want to develop challenging apps for the global market this is the opportunity you are looking for.

Key Responsibilities

- Help develop apps for clients from all over the world using agile development methodologies
- Collaborate with designers, developers, QA and product managers to plan and ship new features
- Participate in code review and write unit tests to ensure high-quality software

Additional Information

- **Job Location:** Coimbra, Porto, Leiria, Lisboa, Aveiro (Portugal)
- **Position Type:** Full-time
- We offer a competitive compensation package as well as an environment conducive to personal and professional growth

Requirements

- BSc or MSc in Computer Science or Computer Engineering
- 1+ years of experience writing UIKit apps in Swift or Objective-C
- Good knowledge of iOS design patterns and software architecture principles
- Ability to write thread-safe and resource efficient code
- Experience in setting up CI servers is a plus
- Knowledge of App Store Connect, app provisioning and codesigning experience is a plus
- Must have excellent problem solving skills
