

UI/UX Designer

Coimbra, Porto - Portugal

WIT is looking for passionate designers to build great user experience in mobile and web applications that will be deployed in the global market. As a UI/UX Designer you will help us to create unique experiences for our clients, major Telecom Operators all over the world. Focused on usability, simplicity and elegance you will devise user-interfaces for mobile/web/TV applications.

Key Responsibilities

- Work directly with Product Managers and Developers to identify and solve user problems
- Create and prototype new and improved user experiences
- Work across multiple platforms (iOS, Android, Mobile Web, Web, PC, TV) to create cohesive product experiences
- Work with industry leaders for a global audience of millions of users
- Produce UX and UI documentation

Additional Information

- Job Location: Coimbra, Porto (Portugal)
- Position Type: Full-time

Requirements

- Experience and a significant portfolio in Graphic, UI/UX design (Web and Mobile) with a clean and elegant aesthetic
- Expertise in user-interface guidelines and best practices for all major platforms (iOS, Android, Web)
- Full knowledge of Adobe CS, Sketch and Invision
- Notions of Motion design for video and app animations
- Must be comfortable with wireframing
- UX skills and sensibility for designing user centered interfaces focused on usability
- Is a plus to have experience with:
 - Icon design and illustration
 - Mobile apps design
 - User testing
 - Animated prototypes in After Effects, Framer.js, Pixate, Facebook Origami
 - HTML, CSS and JS
