

UI/UX Designer

Coimbra, Porto, Lisboa (Portugal)

WIT is looking for passionate designers to build great user experience in mobile and web applications that will be deployed in the global market. As a UI/UX Designer you will help us to create unique experiences for our clients, major Telecom Operators all over the world. Focused on usability, simplicity and elegance you will devise user-interfaces for mobile/web/TV applications.

Key Responsibilities

- Responsible for the creation of advanced user-interfaces according to the new design trends
- Become expert in the design and user-experience guidelines of the following platforms: Mobile (iOS, AndroidOS, Windows Phone), Web and PC
- Work with internal teams to create sketches, wireframes, mockups and prototypes that illustrate user experience across multiple devices
- Produce UX and UI documentation
- Participate in regular design reviews and other team-wide design efforts

Additional Information

- Job Location: Coimbra, Porto, Lisboa (Portugal)
- Position Type: Full-time

Requirements

- 2+ years of experience in UI and UX Design for mobile applications
- Academic background in Human-Computer Interaction
- Expertise in designing intuitive UIs and knowledge of current best practices
- Visual design skills and graphics software knowledges
- Experience with standard tools of the design trade such as Photoshop, Fireworks, Illustrator, Balsamiq, Flash, Dreamweaver, Visio, etc
- Ability to multi-task, prioritize projects, and communicate progress and expected milestones
- “Out-of-the-box” thinking is highly appreciated
- Candidate must be fluent in English language
