

iOS Developer

Bangalore - India

We are an international company starting a new development center in Bangalore and we are seeking talented iOS Developers to create mobile apps for iPhone and iPad. If you have experience in this platform, good skills on Objective-C/Swift programming and want to develop mobile apps for the global market this is the opportunity you are looking for.

Key Responsibilities

- Design and develop applications for the iOS platform.
- Work closely with product management, UI/UX designers, API/Backend engineers and quality teams on feature definition and release milestones.
- Perform peer code-reviews and unit-testing to ensure high-quality software.
- Utilize agile development methodology.

Additional Information

- Job Location: Bangalore (India)
- Position Type: Full-time
- We offer a competitive compensation package as well as an environment conducive to personal and professional growth.

Qualifications Experience & Educational Requirements

- BSc or MSc on Computer Science or Computer Engineering
- Minimum 2 year of experience with Swift/Objective-C
- Knowledge about the iOS architecture and frameworks
- Ability to optimize code (memory/speed) in iOS Apps
- Experience in HTTP, REST, XML is a plus
- Experience with version control systems
- Must have excellent problem solving skills
