

# Mobile Web Engineer

Coimbra, Porto, Leiria, Aveiro - Portugal

We are seeking for talented Web Engineers that have experience in the development of Web interfaces for mobile devices. If you have good skill with web technologies and if you want to be part of a team that creates products for the global market, this is the opportunity you are looking for.

## Key Responsibilities

- Develop mobile Web applications;
- Understand the limitations and potential of the mobile browsers;
- Understand API specs and develop UI accordingly;
- Work closely with UI/UX designers, API/Backend engineers and quality teams during the whole software development process;
- Perform peer code-reviews and unit-testing to ensure high-quality software;
- Utilize agile development methodology.

## Additional Information

- **Job Location:** Coimbra, Porto, Leiria, Lisboa, Aveiro (Portugal)
- **Position Type:** Full-time
- We offer a competitive compensation package as well as an environment conducive to personal and professional growth

## Requirements

- BSc or MSc on Computer Science or Computer Engineering
- 2+ years development experience using Web technologies
- 1+ years of experience developing for mobile web browsers
- Solid Experience in HTML5, CSS3 and Javascript
- Experience with JS frameworks (React, JQuery, Backbone, Angular, etc.)
- Proficiency with JQuery Mobile or similar platforms
- Knowledge of web protocols (HTTP, SOAP, REST, etc.)
- Experience with a version control system
- Must have excellent problem solving skills
- Must be self-motivated and able to multi-task
