

# Motion Designer

Coimbra - Portugal

---

WIT is looking for a talented Motion Designer with excellent skills on video edition to bring sight and sound together in order to tell cohesive stories. If you are a creative person, passionate for producing high-quality videos this is the opportunity for you. Our company works for the global market, with software running in more than 42 countries and we are shaping the future of communication software, so... here you have plenty of content to come up with outstanding and creative video productions.

## Key Responsibilities

- Create compelling multimedia products for our Marketing activities
- Work with internal teams to conceptualize, storyboard and draft visual narratives
- Develop viral and shareable visual content for online and in-app use
- Providing creative and technical support for video projects, editing and creating motion graphics
- Communicate effectively conceptual ideas and follow design guidelines
- Exercise strong attention to details and be willing to iterate your design until you achieve perfection

## Additional Information

- Job Location: Coimbra (Portugal)
- Position Type: Full-time

## Requirements

- Proven work experience as a video editor with a strong portfolio
- Solid experience with digital technology and editing software packages (e.g. Adobe Premiere or Adobe After Effects)
- Strong sense of typography, conceptual thinking, animation and motion
- Experience in Graphic design, Mobile UI /UX and illustration will be a plus
- Must be comfortable with special effects, 3D and compositing
- Creative mind but also practical skills
- Passionate about film and video editing
- A keen eye for detail and storytelling skills
- Must have the ability to work under pressure and meet deadlines
