

Head of Artificial Intelligence

Coimbra, Oporto, Leiria, Lisbon, Aveiro - Portugal

WIT Software is a well-established software company working for several Mobile Telecom Operators around the globe. We are looking for a proven leader with sound knowledge on Artificial Intelligence, a solid background on innovation and a strong customer-centric mindset. If you want to embrace new challenges and help us leverage the potential of Artificial Intelligence in the Telecom industry, this is the opportunity you are looking for.

Key Responsibilities

- Take a hands-on role and create a team with excellence on AI and data science
- Liaise with key business stakeholders to understand the business needs
- Analyze and implement solutions using AI algorithms to help solve real problems
- Research and prototype new solutions and make them usable at scale
- Conduct benchmarking and fine tuning of the algorithms
- Collect feedback regarding customer requirements and market trends
- Fine tune the user-experience when applying AI techniques
- Document the algorithms and the solutions that will be devised

Requirements

- Ph.D. in Artificial Intelligence, Computer Science or related areas (preferably)
- Very solid knowledge in areas like Machine Learning, Data Science, Business Intelligence, Big Data
- Experience on the application of data science and AI on industry projects
- Leadership skills and experience on project/team management
- A strong track record on effective problem solving, including defining problems, identifying data strategy, building MVPs and scaling/productizing a prototype to full-scale production.
- Excellent verbal and written English skills

Additional Information

- Job Location: Coimbra, Oporto, Lisbon, Leiria, Aveiro (Portugal)
- Position Type: Full-time
- We offer a competitive compensation package as well as an environment conducive to personal and professional growth
