

# Node.js Engineer

Coimbra, Porto, Aveiro, Leiria - Portugal

We are seeking talented Software Engineers to write code on Node.js that will be deployed on Amazon Web Services using a serverless architecture. If you have such skills and you want to develop software applications for the global market this is the opportunity you are looking for.

## Key Responsibilities

- Developing high-performance and secure applications by writing testable, reusable and efficient code
- To collaborate with front-end developers on the system integration
- Running tests and repairing defects
- Recommending and implementing improvements to processes and technologies
- Keeping informed of advancements in the field of Node.js and related technologies

## Additional Information

- Job Location: Coimbra, Porto, Aveiro, Leiria (Portugal)
- Position Type: Full-time
- We offer a competitive compensation package as well as an environment conducive to personal and professional growth

## Requirements

- BSc or MSc on Computer Science or Computer Engineering
- 3+ years of experience in Node.js development
- Strong proficiency with JavaScript and Typescript
- Working knowledge with SQL and NoSQL databases
- Proficiency in RESTful APIs and API Communications
- Good grasp of Asynchronous Programming or Non-Blocking I/O
- Working experience with CI/CD pipelines
- Experience with serverless architecture and AWS services is a plus
- Fluent in English
- Strong analytical skills and problem-solving aptitude
- Attention to details
